

WHAT IS CLAIMED IS:

1. A damper assembly with a torque limiter, comprising:
 - a friction torque limiter between an input
5 axis or an output axis and an airtight damper.
2. The damper assembly with a torque limiter according to claim 1, wherein said torque limiter is attached outside an airtight damper to configure a
10 friction plate.
3. The damper assembly with a torque limiter according to claim 1, wherein said torque limiter is provided inside an airtight damper to form a friction
15 plate.
4. The damper assembly with a torque limiter according to claim 1, wherein said torque limiter is provided inside an airtight damper to form a conical
20 ring.
